

LAURA SAVIN

1990-1996

"Our favourite thing to do was to play house with small plastic farm animals. We gathered ta Hanna's sandbox and played for hours. At the beginning of each summer, we divided the animals among ourselves and then spent the summer gathering bottle crown caps to use them as plates."

1997-2000

"I still have the large 7-generation pedigrees of my two favourite horses stored away somewhere."

2000-2003

"After I moved on from the pedigree collecting, it was time for newspaper clippings."

2003-

"The 7 year old movie ticket • The tiny puppy collar."

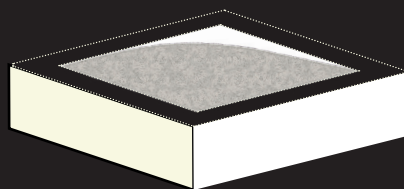

"To somebody else they may be pieces of paper, some prettier than others, but for me they are almost like the beads in a rosary and help me recollect past events and life stages."
